July 1, 2011

**Please submit the form by August 31, 2011  
for your dependent spouse to be covered as a  
dependent of the Culinary Health Fund.**

Dear Culinary Participant:

Our records show that you have a dependent spouse that may have lost eligibility because we did not receive an Insurance Verification form from them.

In December 2006, July 2008, and again in July 2010 the Culinary Health Fund mailed a Spouse Health Insurance Verification Form that was either:

- not returned to the Culinary Health Fund, or
- was marked that your dependent spouse worked for a non-contributing employer, but did not enroll in their health benefits at work, which is required to remain covered as a dependent of the Culinary Health Fund.

We would like to offer your dependent spouse another opportunity to be covered with the Culinary Health Fund. In order to do so, your dependent spouse must do the following:

- **If your dependent spouse works for a non-contributing employer listed below, they must enroll in their health benefits at work.** If they are enrolled in their health benefits at work, the Culinary Health Fund will add them back on the Plan as secondary. Please fill out the attached Spouse Health Insurance Verification Form and submit it to the Culinary Health Fund by August 31, 2011.
- If your dependent spouse never worked for or no longer works for a non-contributing employer listed below, please fill out the attached Spouse Health Insurance Verification Form and submit it to the Culinary Health Fund by August 31, 2011.

If we do not receive this form by August 31, 2011 your dependent spouse's Culinary coverage will remain terminated and their claims will continue to be denied.

Non-Contributing Employer List 2011	
If your dependent spouse works at any of these employers and is eligible for health benefits, your spouse will need to enroll in health coverage at work to be covered as a dependent with the Culinary Health Fund starting September 1, 2011. Your children do not have to be covered under the other insurance to remain Culinary dependents, only your spouse.
