January 23, 2009

Dear Valued Culinary Provider:

The Culinary Health Fund will be giving new participants' temporary medical/prescription ID cards when they enroll in the plan. This will allow them to receive medical care and fill prescriptions as soon as their coverage begins. Participants' will receive their permanent ID cards within one month of enrolling in the plan.

As usual, please note that the ID card does not guarantee benefits and you should always call to verify the participants' current eligibility status. Below is a sample of the back of the temporary ID card; the front of the card will have all of the participant's personal information.

Temporary ID Card
