# ***Urgent Care***

## locations

### ***What is an Urgent Care?*** ←

Urgent Care is where you should go when your regular doctor's office is closed or you can't see your doctor as soon as you would like. Urgent Care locations are open days, nights and some locations are open on the weekends, and no appointment is necessary.

You can just walk in and receive care for non-emergency situations. Your wait time is much shorter than in the Emergency Room, and you will receive treatment by experienced physicians.

### ***When should I use Urgent Care instead of the Emergency Room?*** ←

Urgent Care center is for non-emergency problems such as:

- Ear aches
- Sprains
- Skin rashes
- Colds
- Coughs
- Sore throats

### ***Great News!***

You and your eligible dependents can now go to **Southwest Medical Associates'** and **Healthcare Partners** Urgent Care locations.

#### **Cost Comparison**

<b>Urgent Care</b>	<b>Emergency Room at a PPO Hospital (true emergency)</b>	<b>Emergency Room (non-emergency)</b>
\$20 co-pay	\$150 co-pay	\$150 co-pay plus 40% coinsurance, and any amount over the allowable charge that the Culinary Health Fund doesn't pay. The Fund will pay no more than \$500, and then you are responsible for the rest.
